

Need staff for your Holiday Club or Playscheme to support children with SEND?

Now you can advertise your jobs for free!

You can advertise your job opportunities free of charge on the **Leicestershire County Council Professionals Website**.

The service has been developed to enhance the recruitment and retention of childcare practitioners in Leicestershire. The aims are to help reduce childcare providers recruitment costs and to be 'the' place for practitioners to go to seek new job opportunities, therefore retaining quality practitioners within Leicestershire.

You will be able to attach your own job descriptions, person specifications and application forms as well as deciding on the closing date for applications and how applications need to be made from interested practitioners.

If you have any questions email jobsinchildcare@leics.gov.uk and quote your reference number.
