

- NOTES:
1. All dimensions are in millimetres unless otherwise stated.
 2. The drawing shows the demarcation points between full layer thicknesses and regulating types for calculation and payment purposes. Materials used for regulating shall not be laid to thicknesses below those stated in the relevant British Standards and "feathering out" shall be achieved by changing to appropriate materials or thickening of the subsequent layer where allowable in the specification.
 3. Where no other conversion rates are stated, the value of 2.3 tonne/m³ shall be used to determine quantities for all types of regulating material.
