Ref: Education guide

13 February 2018

Dear Head

Re: Calling 999 for an Ambulance, a guide for Education

Following a Coroners hearing in the South West, the Coroner has asked that guidance on calling 999 for an ambulance be shared with all educational establishments.

We felt this would be beneficial for all educational establishments across the East Midlands.

The aim of the guidance is to help and support education staff when calling 999 in order to achieve an appropriate and timely response.

Please distribute and display appropriately within your education setting.

Also if you have a defibrillator at you location, please ensure you have sufficient staff trained in paediatric resuscitation and can use the machine.

If you would like further information on this please contact me via ecasnt.safeguarding@emas.nhs.uk

Yours faithfully

Zoe Rodger-Fox
Head of Safeguarding
